

IGNITION STATORS AND IGNITION/LIGHTING STATORS

1/4/08bcl

MAKE/MODEL/YEAR	IGNITION ONLY	IGNITION AND LIGHTING	LIGHTING OUTPUT	PRODUCT NOTES
GAS GAS				
EC200/250/300 97-05	-	2102-0055	60W	Replacement 6 pole stator, replaces original stator on the baseplate. Use existing pulser
MC250 97-05	-	2102-0055	60W	Replacement 6 pole stator, replaces original stator on the baseplate. Use existing pulser
XC200/250/300 97-05	-	2102-0055	60W	Replacement 6 pole stator, replaces original stator on the baseplate. Use existing pulser
HONDA				
CR/XR/Z50R 86-07	-	2102-0027	95W	Replacement high power lighting stator, supplied as OEM stator, ready to plug in
CR60R 83-84	2111-0061	-	-	Single source coil replaces OEM source coil on baseplate
CRF/XR70 97-07	-	2102-0027	95W	Replacement high power lighting stator, supplied as OEM stator, ready to plug in
CR80/85R/RB 83-07	2111-0113	-	-	Complete replacement stator as OEM part, ready to plug in
CRF/XR80/100 85-07	-	2102-0028	95W	Replacement high power lighting stator, supplied as OEM stator, ready to plug in
CR125/Elisnore 79-83	2102-0042	-	-	Replacement stator as OEM part complete on backing plate (inner rotor type)
CR125/250R 84-85	2102-0058	2102-0054	50W	2102-0058 Replacement 6 pole stator, replaces original stator core on the baseplate. Use existing pulser. 2102-0054 Lighting stator same but with 50W
CR125R 86-91	2111-0149	-	-	Complete replacement stator supplied as OEM stator, ready to plug in.
CR125R 92-95	2111-0060	2111-0073	60W	2111-0060 Replacement stator as OEM part, ready to plug in. 2111-0073 Lighting stator same but with 60W
CR125 96-97	2111-0114	-	-	Complete replacement 8-pole stator supplied as OEM stator, ready to plug in.
CR125 98-99	2111-0115	-	-	Complete replacement 8-pole stator supplied as OEM stator, ready to plug in.
CR125R 00-01, 04	2111-0070	2111-0081	50W	2111-0070 plug-in-replacement as OEM stator. 2111-0081 stator core to be fitted to OEM backing plate, 50W lighting output
CRF150R/Exp 08	-	2112-0212	75W	8-pole Lighting stator, replaces OEM stator, pulser and wiring included, ready to plug in
CR250R 86-89	2111-0149	-	-	Complete replacement stator as OEM, ready to plug in.
CR250R 90-91	2111-0060	2111-0073	60W	2111-0060 Replacement stator as OE part, ready to plug in. 2111-0073 Lighting stator same but with 60W
CR250R 92-96	2111-0064	2111-0076	60W	2111-0064 Replacement stator as OE part, ready to plug in. 2111-0076 Lighting stator same but with 60W
CR250 97-99	2111-0116	2111-0117	35W	PART #2111-0116 Complete replacement 8-pole stator as OEM part, ready to plug in. PART #2111-0117 adds to this 35W lighting output
CR250 00-01	2111-0070	2111-0081	50W	2111-0070 Complete replacement 8-pole stator as OEM part, ready to plug in 2111-0081 stator to be fitted to OEM backing plate, 50W lighting output
CRF250R 04-08	2111-0083	2111-0084	75W	2111-0083 Complete replacement 8-pole stator as OEM part, ready to plug in. 2111-0084 identical but with 75W lighting output
XR/XL350R 84-85	-	2102-0043	2X100W	High power lighting stator, as OEM part, plug in replacement with two additional 100W lighting output leads
XR400R 96-05	-	2102-0044	2X100W	High power lighting stator, as OEM part, plug in replacement with two additional 100W lighting output leads
CRF450R 02-04	2111-0067	2102-0053	75W	2111-0067 Complete replacement 8-pole stator as OEM part, ready to plug in. 2111-0083 identical but with 75W lighting output
CRF450R 05-08	2111-0083	2111-0084	75W	2111-0083 Complete replacement 8-pole stator as OEM part, ready to plug in. 2111-0084 identical but with 75W lighting output
CR500R 84-85	2102-0058	-	-	6 pole stator, replaces original core on the baseplate, use existing pulser.
CR500R 86	2111-0149	-	-	Complete replacement stator as OEM, ready to plug in.
CR500R 87-01	2111-0063	2111-0074*	45W	2111-0063 Single source coil replaces original source coil on baseplate. 2111-0074 IS LIGHTING COIL ONLY, may have to tap holes with M4 thread
XL500R 82	-	2102-0043	2X100W	Replacement stator with wiring and grommet. Plugs into OEM connectors. 2x100W lighting output on top of stock output
XR500R 81-84	-	2102-0043	2X100W	Replacement stator with wiring and grommet. Plugs into OEM connectors. 2x100W lighting output on top of stock output
XR600R 85-00	-	2102-0043	2X100W	Replacement stator with wiring and grommet. Plugs into OEM connectors. 2x100W lighting output on top of stock output
XL600R 83-87	-	2102-0043	2X100W	Replacement stator with wiring and grommet. Plugs into OEM connectors. 2x100W lighting output on top of stock output
XR650R 00-07	-	2102-0044	2X100W	Replacement stator with wiring and grommet. Plugs into OEM connectors. 2x100W lighting output on top of stock output

MAKE/MODEL/YEAR	IGNITION ONLY	IGNITION AND LIGHTING	LIGHTING OUTPUT	PRODUCT NOTES
KAWASAKI				
KX60 83-03	2111-0119			Complete stator as OEM consisting of two coils on plate, with connectors, ready to plug in.
KX65 00-05	2111-0120			Complete stator as OEM consisting of single coil on small plate, ready to plug in with connectors and ring.
KX65/85/100 06-08	2111-0121			Complete stator as OEM consisting of single coil on small plate, ready to plug in with connectors and ring.
KX80 80-85	2111-0119			Complete stator as OEM consisting of two coils on plate, with connectors, ready to plug in.
KX80 86-89	2111-0122			Complete stator as OEM consisting of two coils on plate, with connectors, ready to plug in.
KX80 90-97	2111-0123			Complete replacement stator consisting of single coil on round plate with pulser, wiring, and bullet connectors - ready to plug in.
KX80/100 98-00	2111-0124			Complete replacement stator consisting of single coil on round plate with pulser, wiring, and block connector
KX85/100 01-05	2111-0125			Complete replacement stator consisting of single coil on plate with pulser, block connector - ready to plug in
KX100 95-97	2111-0123			Complete replacement stator consisting of single coil on round plate with pulser, wiring, and bullet connectors - ready to plug in.
KX125/250 74-81	2111-0126			Replacement stator supplied as OEM stator, ready to plug in (inner rotor type)
KX125 82-86	2111-0126			Replacement stator supplied as OEM stator, ready to plug in (inner rotor type)
KX125 87-88	2102-0045	-	-	Complete replacement stator as OEM stator supplied with extra bullet connectors (use when needed)
KX125/250 89	2111-0127			Complete stator as OEM consisting of single coil on plate, ready to plug in.
KX125 90-91	2111-0128			Complete replacement stator supplied as OEM stator, ready to plug into OEM bullet connectors
KX125 92-94	2111-0129			Complete replacement stator supplied as OEM stator, ready to plug into OEM bullet connectors
KX125 95-97	2111-0130			Complete replacement stator supplied as OEM stator, ready to plug into OEM connector
KX125 98	2111-0131			Replacement 8-Pole stator supplied as OEM stator, ready to plug in
KX125 99-02	2111-0132	2111-0133	60W	2111-0132 Replacement 8-Pole stator supplied as OEM stator, ready to plug in 2111-0133 identical with 60W lighting output
KX125 03-04	2111-0134	2111-0135	60W	2111-0134 Replacement 8-Pole stator supplied as OEM stator, ready to plug in 2111-0135 identical with 60W lighting output
KDX200 82-86, 88	2102-0046	-	-	Stacked set of coils that replaces original set of coils on baseplate (source + pulser coils)
KDX200 89-06	-	2111-0075	65W	Replacement stator as OEM stator, ready to plug in. (lighting coil is also included)
KDX220 97-05	-	2111-0075	65W	Replacement stator as OEM stator, ready to plug in. (lighting coil is also included)
KX250 82	2102-0046	-	-	Stacked set of coils that replaces original set of coils on baseplate (source + pulser coils)
KX250 83-86	2102-0045	-	-	Complete replacement stator as OEM stator supplied with extra bullet connectors (use when needed)
KX250 87-88	2102-0045	-	-	Complete replacement stator as OEM stator supplied with extra bullet connectors (use when needed)
KX250 90-91	2111-0136			Complete replacement stator supplied as OEM stator, ready to plug into OEM bullet connectors
KX250 92-94	2111-0137			Complete replacement stator supplied as OEM stator, ready to plug into OEM bullet connectors
KX250 95-97	2111-0150			Complete replacement stator supplied as OEM stator, ready to plug into OEM connector
KX250 98	2111-0138			Replacement 8-Pole stator supplied as OEM stator, ready to plug in
KX250 99-01	2111-0139	2111-0140	60W	2111-0139 Replacement 8-Pole stator supplied as OEM stator, ready to plug in 2111-0140 identical with 60W lighting output
KX250 02-04	2111-0141	2111-0142	50W	2111-0141 Replacement 8-Pole stator supplied as OEM stator, ready to plug in 2111-0142 identical with 60W lighting output
KX250F 2004	-	2111-0009	50W	6-pole Lighting stator, replaces OEM stator, pulser and wiring included, ready to plug in.
KX250F 05-08	-	2102-0031	50W	6-pole Lighting stator, replaces OEM stator, pulser and wiring included, ready to plug in.
KX400/500 84-85	-	2102-0052*	65W	65W LIGHTING COIL ONLY. Adds on to baseplate.
KLX400R 03-05	-	2111-0010	200W	High Power 3-Phase replacement stator complete with pulser and wiring, ready to plug in
KDX420/450 80-82	2102-0046	-	-	Stacked set of coils that replaces original set of coils on baseplate (source + pulser coils)
KLX450R 08		2111-0143	130W	DC high power 130W conversion stator kit. Stator, wiring and regulator/rectifier are included
KX500 83-85	2102-0046	-	-	Stacked set of coils that replaces original set of coils on baseplate (source + pulser coils)
KX500 86-89	2102-0045	-	-	Complete replacement stator as OEM stator supplied with extra bullet connectors (use when needed)
KX500 90-04	2111-0065	2102-0052*	65W	2111-0065 Single source coil replaces original source coil on baseplate. 2102-0052 LIGHTING COIL ONLY adds on to baseplate
KLR650 87-07	-	2111-0013	280W	High Power 280W stator, supplied as OEM stator, ready to plug in

MAKE/MODEL/YEAR	IGNITION ONLY	IGNITION AND LIGHTING	LIGHTING OUTPUT	PRODUCT NOTES
KTM				
65/85SX 03-07	2112-0213	-	-	Replacement stator supplied as OEM stator, ready to plug in
105SX 04-08	2112-0213	-	-	Replacement stator supplied as OEM stator, ready to plug in
105XC 08	2112-0213	-	-	Replacement stator supplied as OEM stator, ready to plug in
125SX/EXC/MXC 98-05	-	2112-0214	50W	Replacement lighting stator supplied as OEM stator, ready to plug in
125/144SX 06-08	-	2112-0214	50W	Replacement lighting stator supplied as OEM stator, ready to plug in
200EXC/MXC 98-04		2112-0214	50W	Replacement lighting stator supplied as OEM stator, ready to plug in
200SX 03-04		2112-0214	50W	Replacement lighting stator supplied as OEM stator, ready to plug in
200EXC/XC/XC-W 05-07		2111-0118	50W	Lighting stator supplied as OEM stator, ready to plug in. (4-pin sealed connector + lighting output)
250EXC/MXC/SX 97-99		2102-0055	60W	Replacement 6 pole stator, replaces original stator on the baseplate. Use existing pulser
250EXC RACING (4-stroke) 02-05		2112-0217	130W	2112-0217 is OEM plug in replacement 130W
		2111-0089	270W	2111-0089 is a 270W kit, includes stator, regulator/rectifier, wiring harness and bracket.
250EXC/MXC 00-04		2112-0214	50W	Replacement lighting stator supplied as OEM stator, ready to plug in
250EXC/MXC/XC/WC-W 05-07		2111-0118	50W	Lighting stator supplied as OEM stator, ready to plug in. (4-pin sealed connector + lighting output)
250SX 00-05		2112-0214	50W	Replacement lighting stator supplied as OEM stator, ready to plug in
250SX/SXS 06-08		2111-0118	50W	Lighting stator supplied as OEM stator, ready to plug in. (4-pin sealed connector + lighting output)
250SXF 05-08		2112-0216	60W	Lighting 6-Pole stator supplied as OEM stator, ready to plug in
250XC-F/XCF-W 06-08		2112-0217	130W	2112-0217 is OEM plug in replacement 130W
		2111-0089	270W	2111-0089 is a 270W kit, includes stator, regulator/rectifier, wiring harness and bracket.
300EXC/MXC/SX 98-99		2102-0055	60W	Replacement 6 pole stator, replaces original stator on the baseplate. Use existing pulser
300EXC/MXC 00-04		2112-0214	50W	Replacement lighting stator supplied as OEM stator, ready to plug in
360/380EXC/MXC/SX 97-99		2102-0055	60W	Replacement 6 pole stator, replaces original stator on the baseplate. Use existing pulser
380EXC/MXC/SX 00-02		2112-0214	50W	Replacement lighting stator supplied as OEM stator, ready to plug in
400SX 00-02		2112-0216	60W	6-Pole lighting stator supplied as OEM stator, ready to plug in
400EXC 99-06		2112-0217	130W	2112-0217 is OEM plug in replacement 130W
		2111-0089	270W	2111-0089 is a 270W kit, includes stator, regulator/rectifier, wiring harness and bracket.
400XC-W 07		2112-0217	130W	2112-0217 is OEM plug in replacement 130W
		2111-0089	270W	2111-0089 is a 270W kit, includes stator, regulator/rectifier, wiring harness and bracket.
450EXC 03-07		2112-0217	130W	2112-0217 is OEM plug in replacement 130W
		2111-0089	270W	2111-0089 is a 270W kit, includes stator, regulator/rectifier, wiring harness and bracket.
450SX 03-06		2112-0216	60W	6-Pole lighting stator supplied as OEM stator, ready to plug in
450SXS 04-06		2112-0216	60W	6-Pole lighting stator supplied as OEM stator, ready to plug in
450SMR 05-07		2112-0216	60W	6-Pole lighting stator supplied as OEM stator, ready to plug in
450/505XC-F/SXF 07-08	-	2112-0215	60W	6-Pole lighting stator supplied as OEM stator, ready to plug in
450/530EXC-R/XCR-W 08		2112-0217	130W	2112-0217 is OEM plug in replacement 130W
		2111-0089	270W	2111-0089 is a 270W kit, includes stator, regulator/rectifier, wiring harness and bracket.
520/525SX 00-06		2112-0216	60W	6-Pole lighting stator supplied as OEM stator, ready to plug in
520/525EXC/XC/XC-W 99-07		2112-0217	130W	2112-0217 is OEM plug in replacement 130W
		2111-0089	270W	2111-0089 is a 270W kit, includes stator, regulator/rectifier, wiring harness and bracket.
540SXS 01-06	-	2112-0216	60W	6-Pole lighting stator supplied as OEM stator, ready to plug in
560SMR 06-07		2112-0216	60W	6-Pole lighting stator supplied as OEM stator, ready to plug in

SUZUKI				
RM80 77-01	2102-0042	-	-	Replacement stator supplied as OEM stator, ready to plug in (inner rotor type)
RM85/L 02-07	2102-0042	-	-	Replacement stator supplied as OEM stator, ready to plug in (inner rotor type)
TM100 74-75	2102-0042	-	-	Replacement stator supplied as OEM stator, ready to plug in (inner rotor type)
RM100 76-81	2102-0042	-	-	Replacement stator supplied as OEM stator, ready to plug in (inner rotor type)
TM125 73-75	2102-0042	-	-	Replacement stator supplied as OEM stator, ready to plug in (inner rotor type)
RM125 75-86	2102-0042	-	-	Replacement stator supplied as OEM stator, ready to plug in (inner rotor type)
RM125 87-95	2112-0218	2112-0219	40W	2112-0218 Replacement 6-Pole stator, supplied as OEM stator, ready to plug in. 2112-0219 identical but with 40W lighting output.
RM125 96-97	2112-0220	2112-0221	50W	2112-0220 Replacement 6-Pole stator, supplied as OEM stator, ready to plug in. 2112-0221 identical but with 50W lighting output.
RM125 98-04	2112-0222	2112-0223	50W	2112-0222 Replacement 6-Pole stator, supplied as OEM stator, ready to plug in. 2112-0223 identical but with 50W lighting output.
RM125 05-06	2111-0144	2111-0145	-	2111-0144 Replacement 6-Pole stator, supplied as OEM stator, ready to plug in. 2111-0145 identical but with 50W lighting output.
RM250 76-86	2102-0042	-	-	Replacement stator supplied as OEM stator, ready to plug in (inner rotor type)
RM250 87-93	2112-0218	2112-0219	40W	2112-0218 Replacement 6-Pole stator, supplied as OEM stator, ready to plug in. 2112-0219 identical but with 40W lighting output.
RM250 94-95	2112-0220	2112-0221	50W	2112-0220 Replacement 6-Pole stator, supplied as OEM stator, ready to plug in. 2112-0221 identical but with 50W lighting output.
RM250 96-00	-	2111-0077	50W	Replacement 6-Pole lighting stator, supplied as OEM stator, ready to plug in.
RM250 01-07	-	2111-0078	50W	Replacement 6-Pole lighting stator, supplied as OEM stator, ready to plug in.
RMZ250 04	-	2111-0009	50W	Replacement 6-Pole lighting stator, supplied as OEM stator, ready to plug in.
RMZ250 05-06	-	2102-0031	50W	Replacement 6-Pole lighting stator, supplied as OEM stator, ready to plug in.
RMZ250 07	-	2111-0086	50W	Replacement 6-Pole lighting stator, supplied as OEM stator, ready to plug in.
RM370 76-77	2102-0042	-	-	Replacement stator supplied as OEM stator, ready to plug in (inner rotor type)
RM400 78-80	2102-0042	-	-	Replacement stator supplied as OEM stator, ready to plug in (inner rotor type)
RM465/500 81-84	2102-0042	-	-	Replacement stator supplied as OEM stator, ready to plug in (inner rotor type)
RMZ450 05-07	-	2111-0086	50W	Replacement 6-Pole lighting stator, supplied as OEM stator, ready to plug in.
RM400/500 80-84	2102-0042	-	-	Replacement stator supplied as OEM stator, ready to plug in (inner rotor type)
DRZ400 00-04	-	2111-0010	200W	High Power 3-Phase replacement stator includes pulser and wiring
DRZ400E 05-06	-	2111-0010	200W	High Power 3-Phase replacement stator includes pulser and wiring
DRZ400S 00-07	-	2111-0010	200W	High Power 3-Phase replacement stator includes pulser and wiring
DR650/SE 96-06	-	2102-0039	200W	Replacement 3-Phase stator with source coil. Re-use OE grommet and connector
YAMAHA				
PW50 83-07	2102-0048	-	-	Single source coil replaces original source coil on baseplate
YZ80 84-01	2111-0146	-	-	Set of two source coils to be fitted to OEM baseplate and wiring
YZ85 02-07	2112-0224	-	-	Replacement 4-pole stator supplied as OEM stator, ready to plug in
YZ100 76-79	2111-0066	-	-	Set of source coils that replaces original set on the baseplate (slide in mount for inner rotor type)
YZ125 74-86	2111-0066	-	-	Set of source coils that replaces original set on the baseplate (slide in mount for inner rotor type)
YZ125 87	2102-0058	-	-	6-Pole stator core to be fitted to OE base plate. Re-use wiring and connector
YZ125 88-89	2111-0052	-	-	Set of source coils that replaces original set of source coils on baseplate (hi speed+ low speed coils). Plug in replacement
YZ125 90-91	2111-0146	-	-	Set of coils that replaces original set of coils on baseplate (source + pulser coils)
YZ125 92-93	2111-0057	-	-	Set of coils that replaces original set of coils on baseplate (hi speed + lo speed coils)
YZ125 94-95	2111-0147	-	-	Replacement stator supplied as OEM part. Ready to plug in
WR250 90-97	2111-0059	-	-	Replacement stator supplied as OEM part, ready to plug in. Re-use OE lighting coil.
WR250F 03-07	-	2111-0148	75W	DC high power 130W conversion stator kit. Stator, wiring and regulator/rectifier are included
YZ250 76-84	2111-0066	-	-	Set of source coils that replaces original set on the baseplate (slide in mount for inner rotor type)
YZ250 85-86	2102-0058	2102-0054	40W	2102-0058 6-Pole stator CORE, replaces original stator core on the baseplate, re-use existing pulser. 2102-0054 Lighting stator same but with 40W
YZ250 87-88	2111-0062	-	-	Set of coils that replaces original set of coils on baseplate (hi speed + lo speed coils)
YZ250 89	2111-0053	-	-	Set of coils that replaces original set of coils on baseplate (hi speed + lo speed coils)
YZ250 90-95	2111-0059	-	-	Replacement stator supplied as OEM part, ready to plug in
YZ250 96-98	2111-0151	2111-0152	40W	2111-0151 Replacement 4-pole stator supplied as OEM stator, ready to plug in. 2111-0152 identical but with 40W lighting output
YZ250 99-07	-	2112-0226	40W	Replacement 4-Pole lighting stator supplied as OEM stator, ready to plug in
YZ250F 01-07	-	2102-0056	40W	Replacement 4-Pole lighting stator supplied as OEM stator, ready to plug in
YZ400/426 98-02	-	2102-0056	50W	Replacement 4-Pole lighting stator supplied as OEM stator, ready to plug in
YZ450F 03-05	-	2102-0056	50W	Replacement 4-Pole lighting stator supplied as OEM stator, ready to plug in
YZ450F 06-07	2112-0227	2112-0228	50W	2112-0227 Replacement 4-pole stator supplied as OEM stator, ready to plug in. 2112-0228 identical but with 50W lighting output
WR450F 03-07	-	2111-0148	75W	DC high power 130W conversion stator kit. Stator, wiring and regulator/rectifier are included

*Lighting output only
